Dear Mr. Weisberg:

I am enclosing four disks with the Sen. Russell article. The article is in WordPerfect 5.1 format - this should be compatible with most computer programs. Your friend in New Zealand should be able to translate it into MacIntosh format.

I am still working on your corrections. I recently got another raise and promotion so I have been putting in many long hours at work. You may want to see if someone else

can help type the book. I can no longer put in the time I was able to while I was in school. Until you find someone else, I will continue to put in some hours when I get the time.

If you need more disk copies, let me know.

Carol Dick
